Crisp

There are salads, and then there are heaping bowls of delicious fresh ingredients such as vine-ripened tomatoes, kalamata olives, prosciutto, and portobello mushrooms. All of Crisp's salads, which are \$8.75 or less, are prepared when you order them, and all of them are huge. If salads aren't your thing, though, no problem. Crisp, which is now open for dinner, offers several sandwiches including a classic BLT (\$6.50) served with a creamy herb aioli for an extra boost of flavor.
